SmartControl Remote Pairing Procedure

1. On the Remote handset - activate the **SmartControl remote** by pressing and holding the two top buttons **UP** and **IN** together for approximately **3 seconds**.

Remote handset

2. On the SmartControl panel - switch <u>**OFF**</u> the winch **12V MASTER** switch.

3. On the SmartControl panel - simultaneously press and hold the LIFT WINCH switch **UP** and the RECOVERY WINCH switch **OUT**.

4. On the SmartControl panel - switch <u>**ON**</u> the 12V MASTER switch.

5. On the SmartControl panel - maintain the hold on the **UP** and **OUT** switches for approximately 6 seconds until a beeping sound commences.

6. On the Remote handset - within 10 seconds of the beeping initiation, press **any** button.

The pairing will conclude successfully upon cessation of the beeping.
